CoolCatTeacher's
15 BEST TOOLS
for G Suite Users

Essential Productivity Toolbox

1
Extensity
goo.gl/ZeVrSw

Extensity gives you the ability to turn Chrome extensions on and off. It is the swiss army knife of all extensions. It also prevents conflicts between your extensions. This is the first thing I help my students install.

2
Voice Typing in Docs
goo.gl/EPJeNt

Dictate and edit a Google Doc with your voice! In the Doc simply select Tools>Voice typing. When you are ready to speak, click the microphone.

Reading and Writing Literacy Superkit

3
Fluency Tutor for Google™
goo.gl/4q8Cvf

This Google Chrome app that helps busy teachers bring emerging and struggling readers, and English Language Learners, up to speed. Fluency Tutor lets students practice reading aloud with almost any content they want, and makes it easy for their busy teachers to track their progress through the school year.

4
Read&Write for Google Chrome™
goo.gl/gVEZkU

Read&Write for Google Chrome is an easy-to-use extension that supports your students in the G Suite for Education environment with the reading, writing, and study skills tools. The tools are able to support students in web pages, PDFs, Google Docs, ePubs, and more!

5
Grammarly
goo.gl/ekF19Y

This free writing app helps ensure everything you write in Chrome is mistake-free and effective.

6
Pro Writing Aid
goo.gl/ZAHV18

Pro Writing Aid is a Google Doc add-on that assists students by checking their writing for consistency, grammar mistakes, cliches, acronyms, and more.

7
Kaizena
goo.gl/AJWSPk

This add-on for Google Docs allows you to quickly give and receive feedback on studnet content by using voice or text comments.

8
EasyBib
goo.gl/NB13DZ

Add EasyBib's toolbar as a Chrome extension to cite websites with just one click. This tool also provides an analysis on the credibility of the website you are citing.

Math Helpers

9 · **g(Math)**
goo.gl/5SCZsk

g(Math) is a Google Add-on for Docs, Sheets and Forms. It creates rich math expressions and graphs for direct insertion into your Google Doc or Sheet.

10 · **GeoGebra**
goo.gl/pzGy29

This free app is great for all levels of mathematical education. It's easy-to-use and includes a graphing calculator for functions, geometry, calculus and statistics.

11 · **LucidCharts**
goo.gl/HcVxQx

Use Lusidcharts to easily draw flowcarts, mockups, mind maps, and other diagrams in real-time with your classroom.

Teacher Toolbox

12 · **Link Clump**
goo.gl/7XNXpF

This tool lets you open, copy or bookmark multiple links at the same time. It saves time on assessing and reviewing work.

13 · **Goobric**
goo.gl/pqb9fd

A web app that enables flexible, efficient, rubric-based grading assessments on Google Drive.

14 · **Chrome Remote Desktop**
goo.gl/T39Gpj

The Chrome Remote desktop lets you remotely access another person's desktop through the Chrome browser or a Chromebook - all connections are fully secure.

15 · **Share to Classroom**
goo.gl/BclYPX

If you are a Google Chrome Classroom Teacher, use this extension to push webpages instantly to your students' computers. Students don't have to type URLs and can also share web pages back.
